RE: Our Home

Taylor:

Thank you for helping us with our remodel on our home. We had considered doing something for many years and our decision was not made without some anxiety. However, we felt all along that we were in great hands and the work turned out better than we could have hoped.

As you know, it wasn't a minor project. The work entailed moving walls in the master bedroom, remodeling a bathroom, setting tile, re-routing vents, flues and plumbing, painting, and installing lights and flooring throughout the home.

We appreciated that you and your team, which included Rik, Marv and Robert were very knowledgeable, worked very hard and quickly, and provided outstanding craftsmanship. We took a chance on you, as homeowners often do not know exactly who they are dealing with, however, our trust was well-placed. We feel very grateful to have chosen this company and we were treated honestly and well.

We particularly appreciated how your team cleaned up each night and how they placed temporary coverings to protect the home and furnishings.

We will never regret having selected your fine team to help us through a delicate remodel and we look forward to enjoying their work for many years.

Warmly,

John
